

Mission Test Director

Support engineering analysis, planning, test integration, and test execution activities associated with a major US missile test range. The range supports ballistic missile, guided weapon and aeronautical tests and evaluations as well as space situational awareness operations and experiments to defend the United States to ensure our nation's safety.

Essential Functions

- Successfully lead geographically dispersed teams with multiple efforts simultaneously.
- Perform analysis of documented user requirements and author test plans in support of range tests.
- Review user requirements documentation; design, define and document mission test plans; transform test plans into test scripts and execute those scripts.
- Conduct risk analysis and provide risk mitigation solutions when appropriate.
- Serve on console to support real-time flight test execution in multiple positions.
- Directs range tests with little supervision.
- Support all activities as assigned.

Required Skills

- Established organizational and leadership skills.
- Strong oral and written communication skills.
- Proficient in the use of Microsoft Office Suite.
- Ability to maintain poise in stressful work environment to perform duties with little supervision.

Required Experience

- Bachelor's Degree in a related discipline required
- Master's Degree in a related discipline desired.
- Five (5) or more years of experience with real-time flight-test execution in a Major Range and Test Facility Base environment.

Additional Eligibility Qualifications

- Must be able to obtain and maintain a valid passport for travel.
- Must be able to obtain and maintain a DoD Secret Security Clearance, which includes U.S. citizenship or U.S. naturalization.
- Must be fully vaccinated from the COVID-19 virus, which means two weeks have passed since a single-shot vaccine or the second dose of a two-shot vaccine. Requests for medical or religious accommodations will be considered on a case-by-case basis.
- The flexibility to work occasional non-duty hours or on weekends to support specific test or mission requirements.
- 20% travel to remote location required.
- Valid U.S. Driver's License required.
